

Aluminum Asset Tags

Anodized sub-surface image

- Track your company's valuable physical assets with reliable accuracy.
- Deter theft with a visible ownership identity.
- Present a truly professional image in any environment from shop floor to front office with attractive designs and the highest quality graphics.
- Labels customized exactly to your needs. Include your logo, if desired, and one or more colors.

FEATURES

- Extremely fine resolution of high density barcodes, detailed logos and graphics and halftones.
- Embedded image provides unparalleled durability.
- Designed to your exact specifications. Can be produced in virtually any size or shape.
- A variety of color options available to choose from.

Conforms to Industry Standards:

MIL-DTL-19834C

GG-P-455-B

MIL-DTL-15024F

ISO 15416

ANSI-X3.182-1990

RoHS, WEEE, REACH

as well as other applicable standards.

BARCODES

- Any barcode symbology may be utilized including linear or two dimensional codes. Asset tags may also be produced with no barcode and with human readable data only.
- Variable data can be generated from any sequence you specify or, in the case of complex or random data, you may provide an electronic data file.
- Our rigorous ISO Certified Quality Management System and robust data management services ensure data integrity and complete delivery.

MATERIALS

- Ultra-durable photo imaged graphics are embedded within the aluminum, beneath the anodic surface, providing years of service and exceptional resistance to chemicals, heat, cold, abrasion and prolonged exposure to harsh elements.
- Most commonly produced in thickness of .005" but other thicknesses are also available to meet your needs. Common sizes are 1.50" x .75" and 2.00" x .750" but labels can be produced in virtually any size or shape you may require.
- Super-bonding adhesives combined with sub-surface images thwart attempts to remove or vandalize. Choose 3M® 9453 for general use and exceptional permanent bonding to an extensive variety of surfaces.
- A wide variety of other premium 3M® brand adhesives is available for optimum bond to specific challenging surfaces.
